SERVICE BUNDLES

SERVICE BUNDLES

PMPM/bundled payments for specific populations, e.g.:

- Foster/Transitional-Aged Youth
- Homeless
- Diversion/Re-entry
- Rising Risk

May be used in conjunction with non-PMPM/non-bundled payments

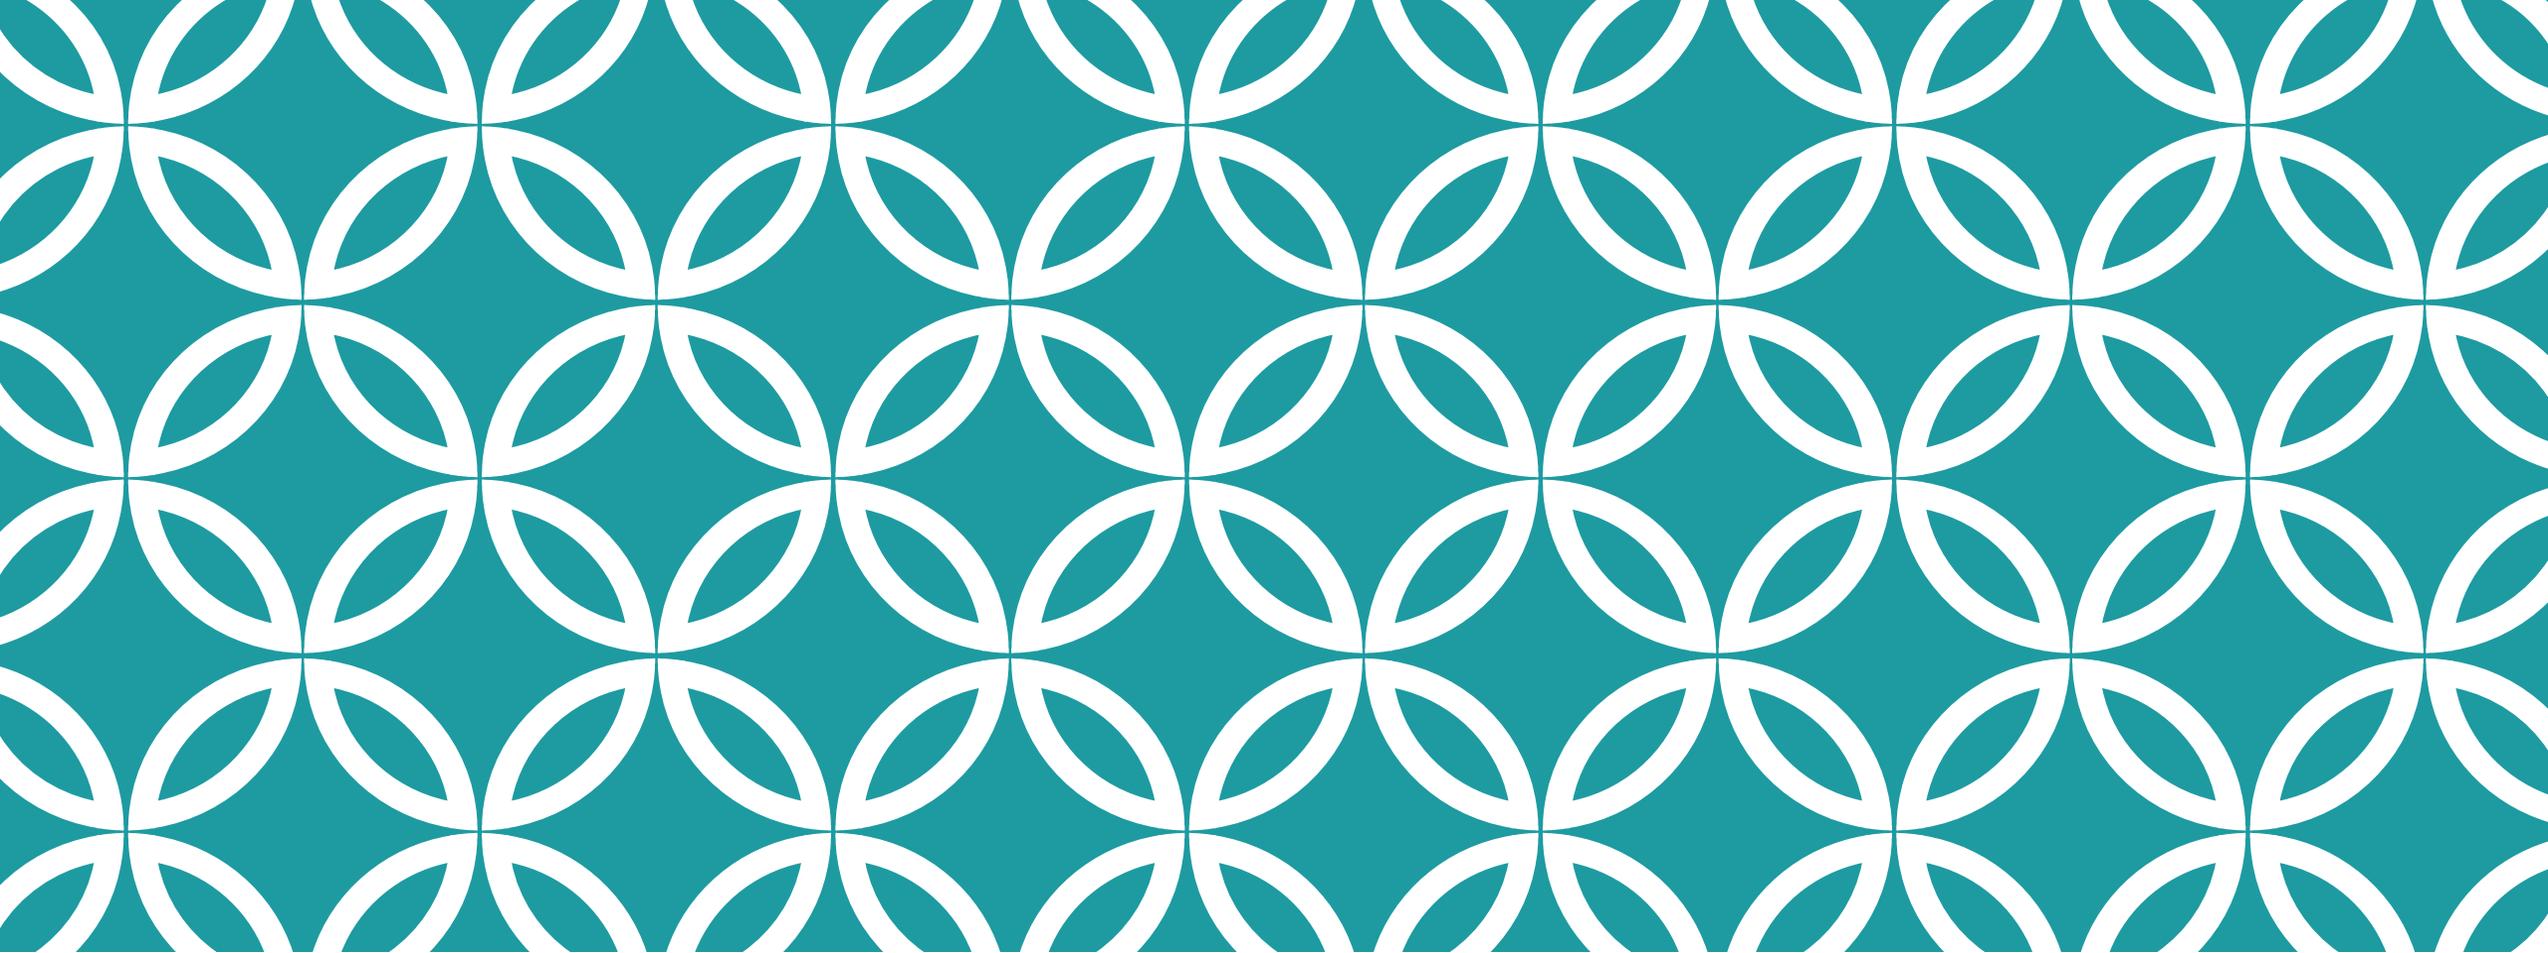

Annual value determined prospectively, with flexibility to repurpose funds within the year via the PDSA cycle

SERVICE BUNDLES

Annual value based on:

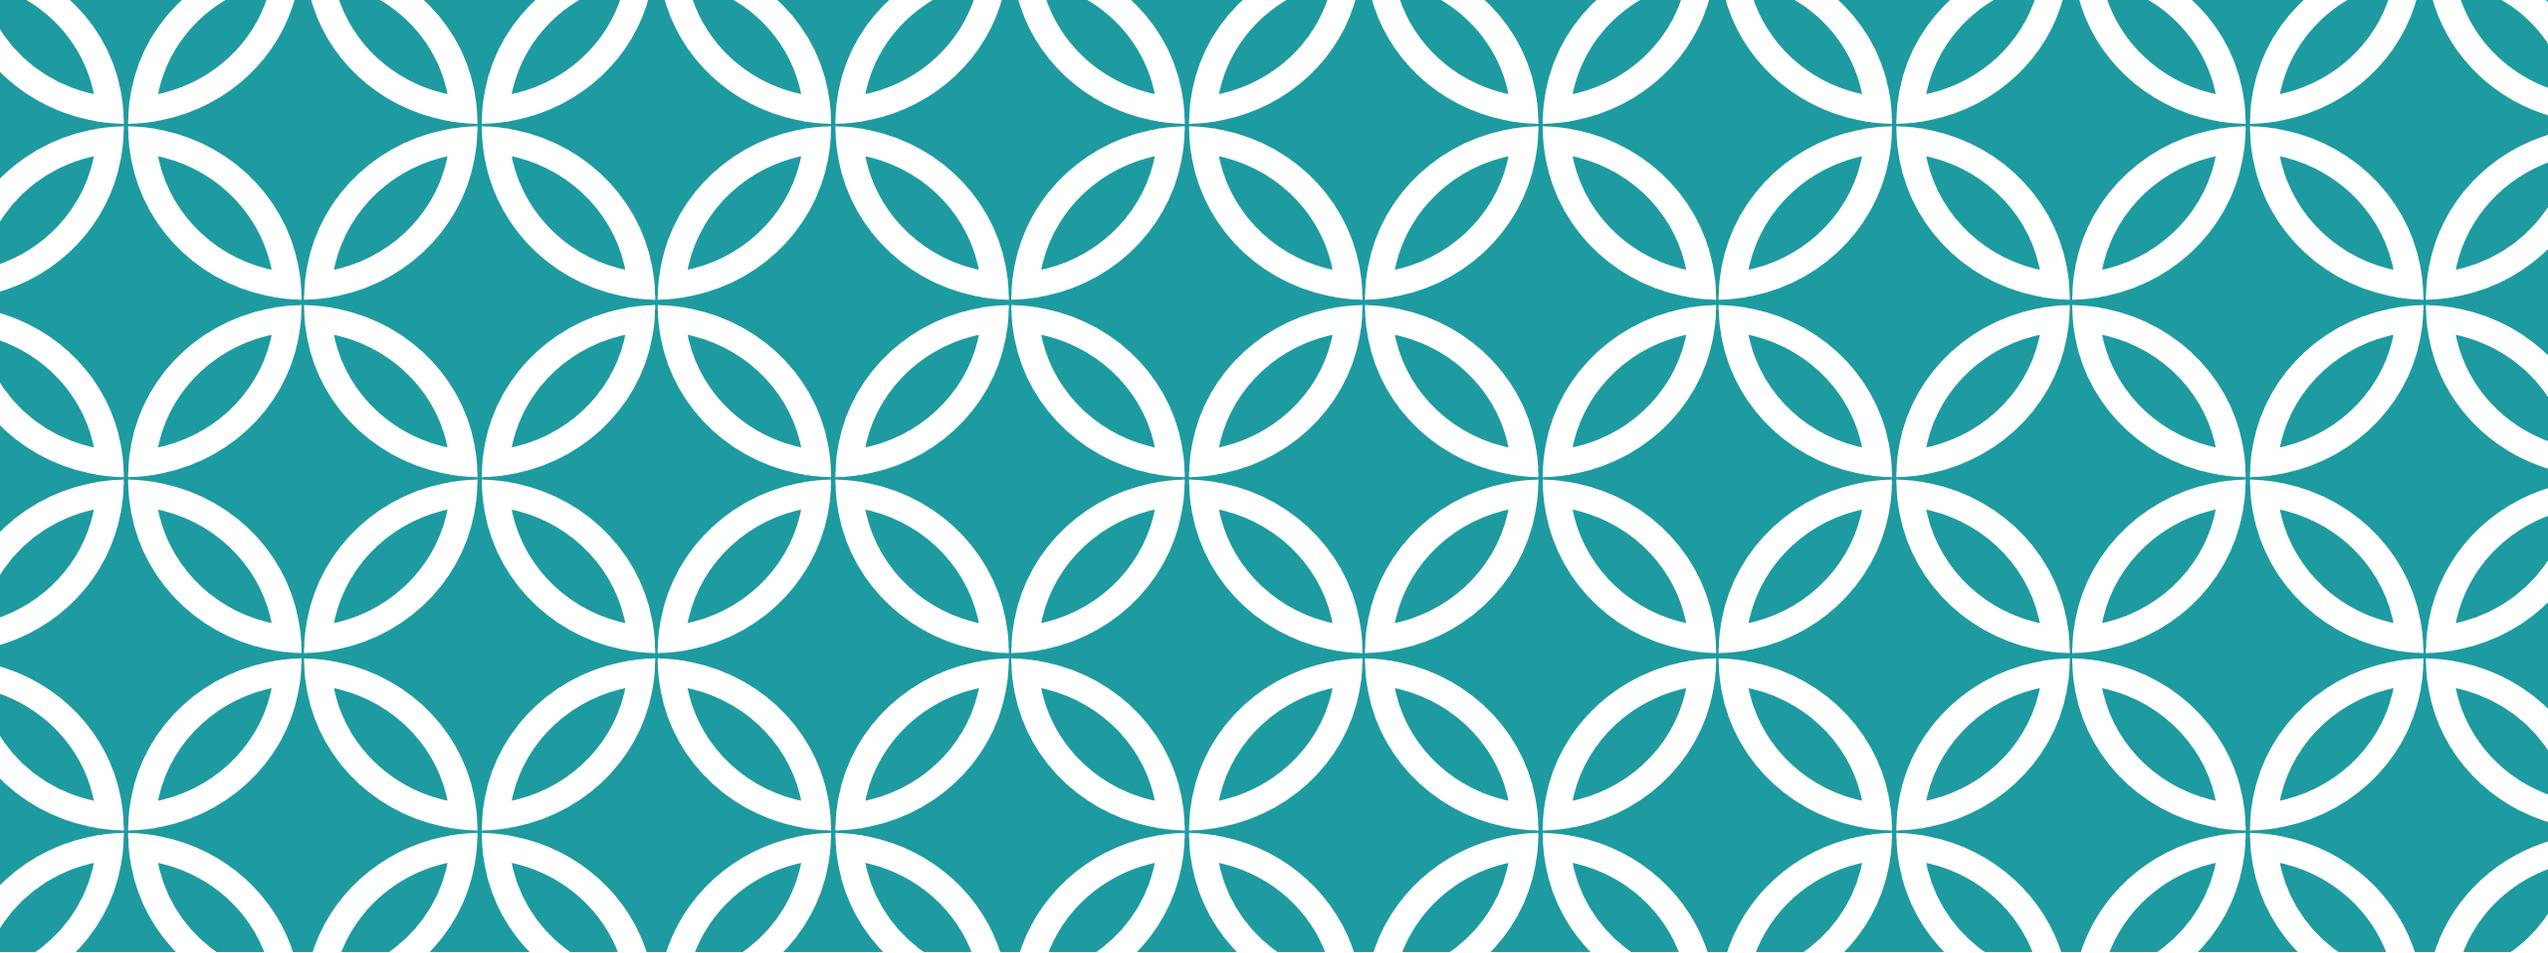

- Value of each of the services offered in the bundle (loosely tied to cost; supporting documentation must be included)
- Estimated number of people served by the bundle
- Average number of months they are expected to receive the bundle
- Estimated utilization of the services within the bundle

Savings available as a result of PMPM/bundled payments may be directed to the housing pool. How “savings” is defined is yet to be determined.

SERVICE BUNDLES — Q&A

DRAFT REQUEST FOR APPLICATION

DRAFT RFA & APPLICATION EVALUATION PROCESS

High level takeaways

- Goes beyond STCs
- Flexibility in program and budget design
- Payments are tied to deliverables, not cost-based
- The application is substantial – start planning now

RFA COMMENTS SUBMITTED TO DHCS

Joint comment letter

- 1) Describe the anticipated “new pilot requirements” (*Page 6, Section 2.2, Application*)
- 2) Clarify how pilot goals will be used so county teams can propose goals that are realistic and relevant (*Universal Metrics, page 9, Section 4.1a, Application*)
- 3) Align the description of the budget with language in the STCs regarding pre-set payment amounts and deliverables (*Page 12, Section 5.5, Application*)
- 4) Award full points to county teams that provide a compelling reason for requesting an exemption to include required participating entities (*Page 2, Section B.1.2, Evaluation*)
- 5) Increase the point values associated with the care coordination and data sharing sections of the application (*Page 3, Section 3, Evaluation*)
