	<p>8) Group Home Monthly Visits</p> <p>CFL 10/11-32</p>	<ul style="list-style-type: none"> The in-state portion of the allocation is distributed based on 50% of each county's percent to total of the 56 counties' actual GHMV expenditures as claimed on the CEC for most recent 4 quarters. The remaining 50% is distributed based on each county's percent to total of the 56 counties' supervised group home placements extracted from CWS/CMS for calendar year 2009. The out-of-state portion of the allocation is distributed based on each county's percent to total of the 56 counties' out of state placements extracted from CWS/CMS for calendar year 2009. Methodology is the same as probation There is a minimum floor of \$1000. 	<ul style="list-style-type: none"> Expenditures are taken from the CEC claim. Caseload is from CWS/CMS extract reports 	<ul style="list-style-type: none"> <u>Non-Waiver Counties</u> - For each fiscal year, the in-state costs for 10 visits are calculated using the in-state GH caseload for two hours per visit times the hourly rate of a social worker (\$72.60). An additional two hours are calculated for the in-state, out-of-county placements at the hourly cost of a social worker. The out-of-state costs for ten visits are calculated using the out-of-state GH caseload divided by two cases per visit for 12 hours per visit times the hourly rate of a social worker. Per Diem and travel costs are added for each out-of-state visit. <u>Waiver Counties</u> - FY 10/11 base amounts for IVE waiver counties are \$3.9M federal and \$4.2M general fund. (CFL 10/11-47) 	<ul style="list-style-type: none"> 50% - September 2009 - June 2010 50% - Calendar year 2009 FFY 2003-FFY 2005
	<p>9) CHILD WELFARE SERVICES (CWS)</p> <p>a) <i>CWS Basic Calculation</i></p> <p>CFL 10/11-46</p>	<ul style="list-style-type: none"> Determined using the unit cost developed in each county's final FY 2001/02 Proposed County Administrative Budget (PCAB) multiplied by the number of justified FTEs generated by projected caseload. An adjustment has been made so no counties are funded at less FTE's than the prior year. The caseload was used in conjunction with the workload standards to arrive at a justified number of FTEs per month, which was then expanded to include supervisors at 7:1 supervisory ratio. The workload standards are as follows: ER = 15.8, ER Assessment = 320.0, FM = 35.0, FR = 27.0, PP = 54.0. Direct Costs and System Support Staff Shifts in Attachment II of CFL are adjusted to balance to each county's Total CWS Basic Allocations. 	<ul style="list-style-type: none"> Caseload from CWS/CMS Based on the various budget and allocation adjustments that were made to CWS Basic and Emergency Assistance (EA) Case Management (CM) in prior years, the allocation methodology for these components no longer provides an adequate distribution to each county. As a one time adjustment, CDSS and CWDA agreed to allocate the funding differences between prior year and current year for CWS Basic on a percent to total of each county's FY 09/10 Basic and EA CM allocations. 	<ul style="list-style-type: none"> Frozen PCAB unit cost from 2001-2002. State Estimates Unit projects county specific caseload trend lines for all 4 components using 36 months of data. 	<ul style="list-style-type: none"> See Data Sources

	29) Medi-Cal a) Staff Development and EDP Costs	<ul style="list-style-type: none"> DHS collects data from counties annually through the "Medi-Cal County Administrative Budget Plan". The plan utilizes expenditures data from 07/08 County Administrative Claim in conjunction with MEDS eligibility data for the same period to establish ratios of eligible to workers to establish a productivity standard. The productivity standard is used as a guideline to determine staffing levels. Productivity standards are recalculated each year. All calculations are then compared to the information submitted to the State by Counties via the Medi-Cal Admin Budget Worksheet as a reasonability test. These cases are developed using past CEC information. DHS uses the past CEC claims for most expenditure data. They analyze the Medi-Cal expenditure trend information from the last 6 quarters as well as the information from the most recent 2 quarters, September and December <i>Note: Normally Staff Development Costs are not funded below the level received in the prior year.</i> 	<ul style="list-style-type: none"> CEC Data - Expenditures Meds eligible CNI 	<ul style="list-style-type: none"> CEC Actual 	<ul style="list-style-type: none">
Medi-Cal Not updated from FY 10/11	b) Line Staff Salary and Benefit Costs	<ul style="list-style-type: none"> For Line Staff Salary Costs (Salary and Benefits), DHS uses the higher of the average monthly compensation as reported on the Medi-Cal Admin Budget worksheet or what was approved in the County's prior year allocation times CNI. Current year CNI was 3.75%. 	<ul style="list-style-type: none"> 	<ul style="list-style-type: none"> 	<ul style="list-style-type: none">

	c) Number of Line FTE's (Line Workers and Supervisors)	<ul style="list-style-type: none"> To determine the number of FTE's Medi-Cal will fund, DHS analyzes the County's previous 18 month average eligible's data compared to the previous 6 month average eligible's data. The months would be the most recent months with statistically reliable data, so in March it would be July-December. This caseload data is then computed to FTE's based on the individual County's performance standards distributed in the Medi-Cal Admin Budget Worksheet. Adjustments to this calculation may be made based on further explanation/justifications received as part of the Medi-Cal Admin Budget Worksheet. 	•	•	•
	d) Clerical FTE's	<ul style="list-style-type: none"> To determine the number of Clerical FTE's that will be funded, DHS compares what is asked for to a standard assumption that Counties should have not more than one clerical staff to every 4 EW's. This is as a rough estimate; counties have the ability to request more and make their "compelling argument". 	•	•	•
	e) Administrative FTE's	<ul style="list-style-type: none"> To determine the number of Clerical FTE's that will be funded, DHS compares what is asked for to a standard assumption that Counties should have not more than one clerical staff to every 6 EW's. 	g) Allocated Operating Support Costs	<ul style="list-style-type: none"> These cases are developed using past CEC information. DHS uses the past CEC claims for most expenditure data. They analyze the Medi-Cal expenditure trend information from the last 6 quarters as well as the information from the most recent 2 quarters 	•	•	•
	h) Medi-Cal Eligibility Data System (MEDS) security agreements	<ul style="list-style-type: none"> Small counties received \$45,100 based on the average developed from a 19-county DHCS survey. Medium/Large counties received \$831,000 based on the average developed from a 19-county DHCS survey. LA received \$1 million Counties that submitted a detailed estimate for the survey were adjusted to receive priority for the amount estimated if higher than the average. Remaining funds were allocated with one pool of funds for the Twenty Small Counties and one for the remaining medium and large-sized counties. Those counties which were unable to provide information as part of the original process were advised they would probably not have their requests met in total for the FY 2008-09 allocation, but that they would then be given priority in FY 2009-10, the second year of the project. 	•	•	•
