Implementation Team met individually with all 39 C-IV Implementation Point of Contacts (IPOCs)

**5 Things To Know About CalSAWS**

**What is CalSAWS?**  
 CalSAWS stands for the California Statewide Automated Welfare System. It will house all 58 California Counties and replace the existing C-IV, LRS, and CalWIN systems.

**Who is building this?**  
 CalSAWS is being built by the CalSAWS Consortium and vendor partners working hand-in-hand with Counties. There are 700+ staff on the CalSAWS project, including County representatives.

**Why?**  
 Per federal mandate, CalSAWS unites all of California's 58 counties under one roof. It streamlines functions and provides users with a seamless experience that is secure and easily accessible.

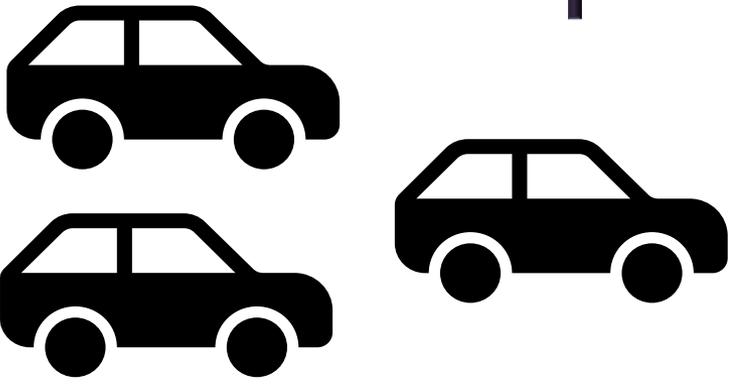

**How?**  
 LRS is being transformed into CalSAWS, which has the look and feel of the C-IV system but with more robust automation. The CalSAWS Project is preparing a set of key Implementation Readiness activities, including User Acceptance Testing (UAT), Data Conversion Clean-up, and Web-based Trainings (WBTs).

**When?**  
 CalSAWS is coming to C-IV Counties in **September 2021!** Check the CalSAWS Implementation News Blast (coming October 2020) for more Timelines.
