

Fresno County DSS

Service Center Project

Data, Dashboards and Decision-Making

Making it Work for the Customer

Fresno County

Pre-ACA and Service Center

Fresno County population = 1 million

Medical Cases = 144,896

CalFresh Cases = 94,482

CalWORKs Cases = 27,631

Traditional Service Model

- Assigned Caseworkers
- Paper Intensive
- Scanned only closed cases
- Designated Intake and Ongoing offices
- In-person intake application interviews
- Minimal amount of data available to manage workload

Business Objectives

1

Enhance customer satisfaction

2

Improve Business Efficiency through leveraging technology

3

Improve Business Efficiency through flexible use of resources

4

Data Informed Decision Making

5

Preparation for Health Care Reform

Enhance Customer Service – ‘Serve the Client’ with ‘One Touch’ and a ‘No Wrong Door’ approach

1

Provides clients with multiple options for accessing services (in office, telephone, internet)

2

Allows clients to be served in all Service Center locations

3

Any worker can assist the client (online case files)

4

Decreases wait times in office and on the telephone

5

Distributes tasks among workers to allow sufficient time to resolve case workloads

Lobby Redesign

1

Staffing Functions include:

- Lobby Navigator
- Rapid Service Unit (RSU)
- Drop-in Staff

2

Lobby Traffic System:

- Kiosk
 - Self service touch screens for clients to request a service
 - Displays the ticket # and directs clients
 - Provides outcome measures including reason for office visit
- Benefits CalWIN PCs, Copiers, Mail Drop Off Box for Self Service
- Phones to access the call center for potentially faster service
- Up Front Scanning

3

EZ Appointment:

- Allows for appointment scheduling across all Service Center Offices
- Round robin assignment to staff

4

Future Enhancements:

- Linkage between LTS and EZ Appointment
- Self Scanning with receipt

LTS Operational Reports

Lobby Counts

Lobby traffic counts by date, location, language and purpose of visit. Provides statistics based on client check-in to the kiosks

Activity Log

Detailed information on each check-in ticket. Filtered by site and date range.

Lobby Snapshot

Real-time status of specified lobby. Shows clients in waiting area, length of wait, and window status.

The screenshot shows a web browser window with the URL <http://etais/lts/snapshot.aspx?lobby=1&fdate=3/10/2014&tdate=3/21/2014>. The page title is "Lobby Snapshot Heritage" with "refresh" and "Back" links. Below the title are four kiosk icons. The "Waiting Area" section shows "Clients waiting: 0" and a yellow rectangular area with five blue person icons. A note below says "*Hover mouse over client icon to see details". The "Lobby Windows" section shows "Available Windows: 17" and a horizontal bar with 17 window icons. A legend at the bottom explains the icons: a blue person icon for "Indicates client", a red person icon for "client wait time > 30 mins", a purple person icon for "Indicates client on hold", a blue and green person icon for "Indicates client being served at window", a yellow person icon for "Indicates worker tending window (not currently serving client)", and a coffee cup icon for "Indicates unattended window (break)".

Lobby Traffic Dashboard: Counts

- Provides client traffic counts, wait times, and window service times by lobby, service type, and language.
- Shows trends by week and by month.
- Used by executive and management staff to monitor and plan for lobby traffic.

Intake & Ongoing Implementation

1

Staffing Functions:

- Phone Interviews
- Face to Face Interviews at Customer Request
- Tasks

2

EZ Appointment used to schedule all CF Intake and CF RRR appointments round-robin to workers as phone interviews

3

Staff receive assignments via TMT. Staff see a list of pending tasks to process, mark tasks complete, and assign future tasks for follow-up

4

Task Management Tool:

- Linked with document imaging for automated task recognition
- CalWIN data uploads for batch task assignment
- Allows for staffing blocking and distribution of workload by %
- Balances workload among available staff

5

Future Enhancements:

- Telephonic Signature
- Oracle Business Intelligence Enterprise Edition (OBIEE) Reporting that will link CalWIN and TMT reports

TMT Operational Reports

- **Completed Tasks Report** - Number of tasks completed in the specified time frame
- **Received Tasks Report** - Detailed listing of all Service Center received tasks, including tasks that were not assigned to a worker
- **Reopened Tasks Report** - Detailed listing of all reopened tasks in the specified time frame
- **Manually Created Tasks Report** - Detailed listing of all tasks manually created in the specified time frame
- **Completed for Others Report** - Detailed listing of all tasks that workers completed for other districts in the specified time frame

Call Center and Call Handling

1

Staff organized into four separate Call Centers functions: Ongoing MN/CF; Ongoing CalWORKs; ACA Warm Hand-Off; and CalFresh Missed Appointment Call Center (Intake)

2

Our MN/CF Phone to Task time split is currently 70/30 respectively

3

Missed Appointment Call Center take inbound calls and conduct interviews for CalFresh applicants who missed their initial interview appointment

4

Service Center staff create a voice mail message directing clients to the Call Center

5

Call Center staff have “universal scheduler” access in EZ Appointment which will allow them to schedule clients for appointments at any office location

6

Robocalls - computerized autodialer to deliver pre-recorded message reminding clients of documents needed to be submitted prior to deadlines (SAR, RRRs)

Call Center Workforce Management

Adherence: The percentage of time that agents follow their schedules. When calculating adherence, Workforce Management (WFM) considers scheduled arrival and departure times, breaks, lunches, and time spent on scheduled activities.

Conformity: The percentage of time an agent works the right amount of time regardless of the time of day when the agent works. Schedule conformity does not take arrival and departure times into account. For example, if an agent is scheduled to work from 08:00 to 16:00, but instead works from 10:00 to 18:00, his or her conformity is 100 percent but adherence is 0 percent.

Occupancy: The percent of logged-in time that an agent spends in active contact handling states (for example, on incoming calls, in wrap-up activity, or outbound calls).
